

New Employee 30-60-90 Day Onboarding Plan

NovaTech Solutions | HR & Line Manager Template

This plan is designed to help new employees integrate effectively into NovaTech within the first 90 days. Managers should review this plan with the employee on Day 1 and check in at each milestone.

Phase 1: Days 1–30 | Learn & Orient

Focus: Understanding the company, role, team, tools, and key relationships.

Week 1: Orientation & Access

- Attend New Joiner Orientation with HR (Day 1 afternoon)
- Complete IT setup: laptop, email, MFA, VPN, core system access
- Meet with line manager — confirm reporting structure, role expectations, immediate priorities
- Set up all required software tools (Jira, Confluence, GitHub, Salesforce if applicable)
- Join department Teams channels and introduce yourself
- Complete mandatory e-learning modules on Workday LMS: Information Security, Data Privacy Policy, Code of Conduct

Week 2–4: Team & Domain Immersion

- Shadow 3+ team members across relevant functional areas
- Review last 3 quarters of project documentation on Confluence
- Attend all team standups, sprint reviews, and department all-hands meetings
- Schedule 1:1 introductory meetings with cross-functional partners (e.g. Sales, Finance, IT)
- Read the NovaTech Client Portfolio Overview (available on Confluence)
- Complete role-specific onboarding tasks as defined by your line manager

30-Day Goal	Success Indicator
Full system access & tools setup	All systems accessible without IT support
Know your team & org structure	Can name all direct team members & key stakeholders
Understand current active projects	Can summarize top 3 active projects in team standup

Completed all mandatory e-learning	100% completion rate in Workday LMS
------------------------------------	-------------------------------------

Phase 2: Days 31–60 | Contribute & Build

Focus: Gaining ownership of tasks, delivering first measurable output, building credibility.

Key Activities

- Take ownership of at least one small feature, task, or project workstream
- Participate actively in sprint planning and backlog grooming (Tech roles)
- Build rapport with at least 2 key clients or internal stakeholders relevant to your role
- Identify a process or tool improvement opportunity and present it informally to your manager
- Complete at least one professional development activity (webinar, certification module, or course) using the PD budget
- Submit your first expense report and familiarise yourself with Workday HR processes

60-Day Goal	Success Indicator
First independent deliverable completed	Reviewed and accepted by manager/team
Cross-team relationships established	Can independently reach out to key contacts
Identify one improvement opportunity	Written summary shared with manager

Phase 3: Days 61–90 | Lead & Own

Focus: Full role ownership, strategic contribution, and confirming long-term development path.

Key Activities

- Lead or co-lead a project meeting, sprint demo, or client call
- Set formal 6-month KPIs in Workday with manager sign-off
- Present a 90-day self-reflection to your line manager (what went well, what to improve, development goals)
- Identify your primary learning goal for the next 6 months and agree on a PD plan
- Contribute meaningfully to one company-wide initiative (innovation challenge, knowledge sharing session, or internal community of practice)

90-Day Goal	Success Indicator
KPIs set and agreed	Signed off in Workday by manager
Role fully onboarded	Working independently without daily guidance
90-day review completed	Written reflection submitted and discussed
Probation confirmation on track	Manager confident to proceed with confirmation

Manager Note: This plan is a guide. Adapt timelines and tasks to the employee's role, experience level, and team context. Check in weekly during the first 30 days.
