

IT Onboarding Setup Guide

For New Employees | NovaTech Solutions IT Department

This guide walks you through setting up your laptop, accessing core systems, and connecting to the NovaTech corporate network on your first day. If you encounter any issues, contact ithelpdesk@novatech.ae or call Ext. 1001.

1. Your Equipment Checklist

The following items will be waiting at your workstation on Day 1:

- Dell Latitude 7540 laptop (or equivalent) — fully configured
- Power adapter + docking station
- USB-C monitor cable
- Welcome envelope with temporary passwords (sealed — do not open until IT briefing)
- NovaTech ID card (collect from Reception on arrival)

If any item is missing, raise a ticket immediately at: <https://helpdesk.novatech.ae>

2. First Login — Windows Setup

2.1 Initial Login

- Step 1. Power on your laptop and wait for the Windows 11 login screen.
- Step 2. Enter your temporary username (format: `firstname.lastname@novatech.ae`) and the password from your welcome envelope.
- Step 3. You will be prompted to change your password immediately. New password must be 12+ characters, include uppercase, lowercase, number, and a special character.
- Step 4. Complete Windows Hello setup (fingerprint or PIN) when prompted.

2.2 Multi-Factor Authentication (MFA)

NovaTech uses Microsoft Authenticator for MFA on all systems. Setup is mandatory.

- Step 5. Download Microsoft Authenticator on your personal or company mobile phone.
- Step 6. Go to <https://aka.ms/mfasetup> on your laptop and sign in with your NovaTech email.
- Step 7. Scan the QR code displayed using the Authenticator app and confirm the 6-digit code.

3. Network & VPN Access

3.1 Office Wi-Fi

Network Name	Password	Purpose
NovaTech-Corp	Ask IT Helpdesk	Corporate devices only
NovaTech-Guest	Welcome2025!	Visitors & personal devices

3.2 Remote Access VPN

- NovaTech uses Cisco AnyConnect VPN for remote access.
- VPN server address: `vpn.novatech.ae`
- Login with your NovaTech email + MFA code.

- VPN must be active when accessing Jira, Confluence, or internal servers from outside the office.

4. Microsoft 365 Setup

4.1 Outlook (Email)

- Open Outlook from the Start menu or taskbar. Your account is pre-configured.
- Set up your email signature using the template at: <https://confluence.novatech.ae/email-signature>
- Your calendar is shared with your team by default. Adjust permissions in Calendar Settings.

4.2 Microsoft Teams

- Teams is your primary communication tool. You will be auto-added to your department channel.
- Set your status and notification preferences on Day 1.
- All project communications should use Teams channels, not personal email.

5. Key System Accounts — Summary

System	Status Day 1	Login URL	Who to Contact
Microsoft 365	✅ Ready	portal.office.com	ithelpdesk@novatech.ae
Workday (HR)	✅ Ready	novatech.workday.com	hr@novatech.ae
